#SIAMACDA27

DEADLINES

Submit Now: Short Abstract and Submission Registration Deadline

September 8, 2026

Submit Now: Archival Proceedings Papers and Non-archival Extended Abstracts

September 15, 2026

Submit Now: Posters

November 9, 2026

Apply Now: Travel Support Application Deadline

November 30, 2026

Early Registration Deadline

January 29, 2027

Reserve Now: Hotel Reservation Deadline

January 29, 2027

About the Conference

This is the conference of the SIAM Activity Group on [Applied & Computational Discrete Algorithms](#). ACDA27 brings together researchers who design and study combinatorial and graph algorithms motivated by applications. ACDA27 is organized by SIAM under the auspices of its Activity Group on Applied and Computational Discrete Algorithms.

ACDA27 includes in its scope all topics where models and algorithms from discrete mathematics are applied to solve problems in computer science, scientific computing, data science, physical sciences, life sciences, engineering, social and information sciences, etc. ACDA27 invites papers on the formulation of combinatorial problems from applications; theoretical analyses; design of algorithms; computational evaluation of the algorithms; and deployment of the resulting software to enable applications.

The ACDA27 conference will include refereed proceedings as well as talks without proceedings papers (in the conventional SIAM style of conferences), posters, tutorials, invited talks, and industry sessions. Awards will be given for best paper, best poster, and best student presentation. Proceedings of the first three ACDA conferences organized in 2021, 2023, and 2025 are available [here](#).

The following conference will be held jointly:
[SIAM Activity Group on Computational Science and Engineering \(CSE27\)](#)

The following workshop will be held jointly:
[SIAM International Meshing Roundtable Workshop 2027 \(IMR27\)](#)

Connect with other attendees on [LinkedIn](#).

Included Themes

Topics of interest include, but are not limited to, discrete or combinatorial problems and algorithms arising in:

- Algorithm engineering
- Algorithmic differentiation (AD)
- Combinatorial optimization and mathematical programming, including scheduling and resource allocation problems
- Combinatorial scientific computing (CSC), including models, algorithms, applications, numerical methods, and problems arising in data analysis
- Computational biology and bioinformatics
- Data management and data science
- Design and analysis of application-inspired exact, approximation, randomized, streaming, and learning-augmented algorithms
- Graph and hypergraph algorithms, including problems arising in network science and complex networks
- Interaction between algorithms and modern computing platforms, including challenges arising from memory hierarchies, accelerators, and novel memory technologies
- Machine learning and statistical methods for solving combinatorial problems
- Numerical linear algebra, including sparse matrix computations and randomized approaches
- Parallel and distributed computing, including algorithms, architectures, distributed systems, and all parallelism ranging from instruction-level and multi-core all the way to clouds and Exascale computing
- Other applications arising from security, computational finance, computational chemistry/physics, quantum computing, etc.

Organizing Committee Co-Chairs

Paul Hovland <i>Argonne National Laboratory, U.S.</i>	Henning Meyerhenke <i>Karlsruhe Institute of Technology, Germany</i>
---	--

Organizing Committee

Emilie Purvine <i>Pacific Northwest National Laboratory, U.S.</i>	Sivan Toledo <i>Tel-Aviv University, Israel</i>	Ali Vakilian <i>Virginia Tech, U.S.</i>
Albert-Jan Yzelman <i>Huawei Technologies, Switzerland</i>	Kamer Kaya <i>Sabanci University, Turkey</i>	Uwe Naumann <i>RWTH Aachen University, Germany</i>
Irene Finocchi <i>LISS University Rome, Italy</i>		

Program Committee Co-Chairs

Gonzalo Navarro <i>University of Chile, Chile</i>	Yihan Sun <i>University of California Riverside, Riverside, U.S.</i>
---	--

Program Committee

David A. Bader <i>New Jersey Institute of Technology, U.S.</i>	Thomas Bläsius <i>Karlsruhe Institute of Technology, Germany</i>	Guy Blelloch <i>Carnegie Mellon University, U.S.</i>
Rezaul Chowdhury <i>State University of New York at Stony Brook, U.S.</i>	Alex Conway <i>Cornell Tech, U.S.</i>	Laxman Dhulipala <i>University of Maryland, U.S.</i>
Xiaojun Dong <i>Category Labs, U.S.</i>	Jeremy Fineman <i>Georgetown University, U.S.</i>	Assefaw Gebremedhin <i>Washington State University, U.S</i>
Yan Gu <i>University of California, Riverside, U.S.</i>	Ioannis Koutis <i>New Jersey Institute of Technology, U.S.</i>	Jakub Łącki <i>Google Research, U.S</i>
Susana Ladra <i>University of A Coruña, Spain</i>	Andrea Lodi <i>Cornell Tech, U.S.</i>	Prashant Pandey <i>Northeastern University, U.S.</i>
Richard Peng <i>Carnegie Mellon University, U.S.</i>	Manuel Penschuck <i>University of Southern Denmark, Denmark</i>	Samantha Petti <i>Tufts University, U.S.</i>
Ilya Safro <i>University of Delaware, U.S.</i>	Olaf Schenk <i>Universita della Svizzera italiana, Switzerland</i>	Christian Schulz <i>Heidelberg University, Germany</i>
Julian Shun <i>Massachusetts Institute of Technology, U.S.</i>	George M Slota <i>Rensselaer Polytechnic Institute, U.S.</i>	Sabine Storandt <i>University of Konstanz, Germany</i>
Blair D. Sullivan <i>University of Utah, U.S.</i>	Vaishali Surianarayanan <i>UC Santa Cruz, U.S.</i>	Hans Vandierendonck <i>Queen's University Belfast, UK</i>
Letong Wang <i>DePaul University, U.S.</i>	Yi Zhou <i>University of Electronic Science and Technology of China, China</i>	

Get Involved

Sponsor, exhibit, or check out past content in our video and presentation archive.

Ways to Sponsor

SIAM invites you to show support of this conference through sponsorship opportunities ranging from support of receptions, audio-video needs, to awards for student travel, and more.

Ways to Exhibit

Learn about opportunities to become an exhibitor at a SIAM conference.

Featured Lectures & Videos

View slides, recordings, and video from past SIAM conferences.

Become a Member

SIAM members get 20-30% off registration for our conferences, plus deep discounts on SIAM books, journals, activity group membership, and more. Start reaping the benefits!

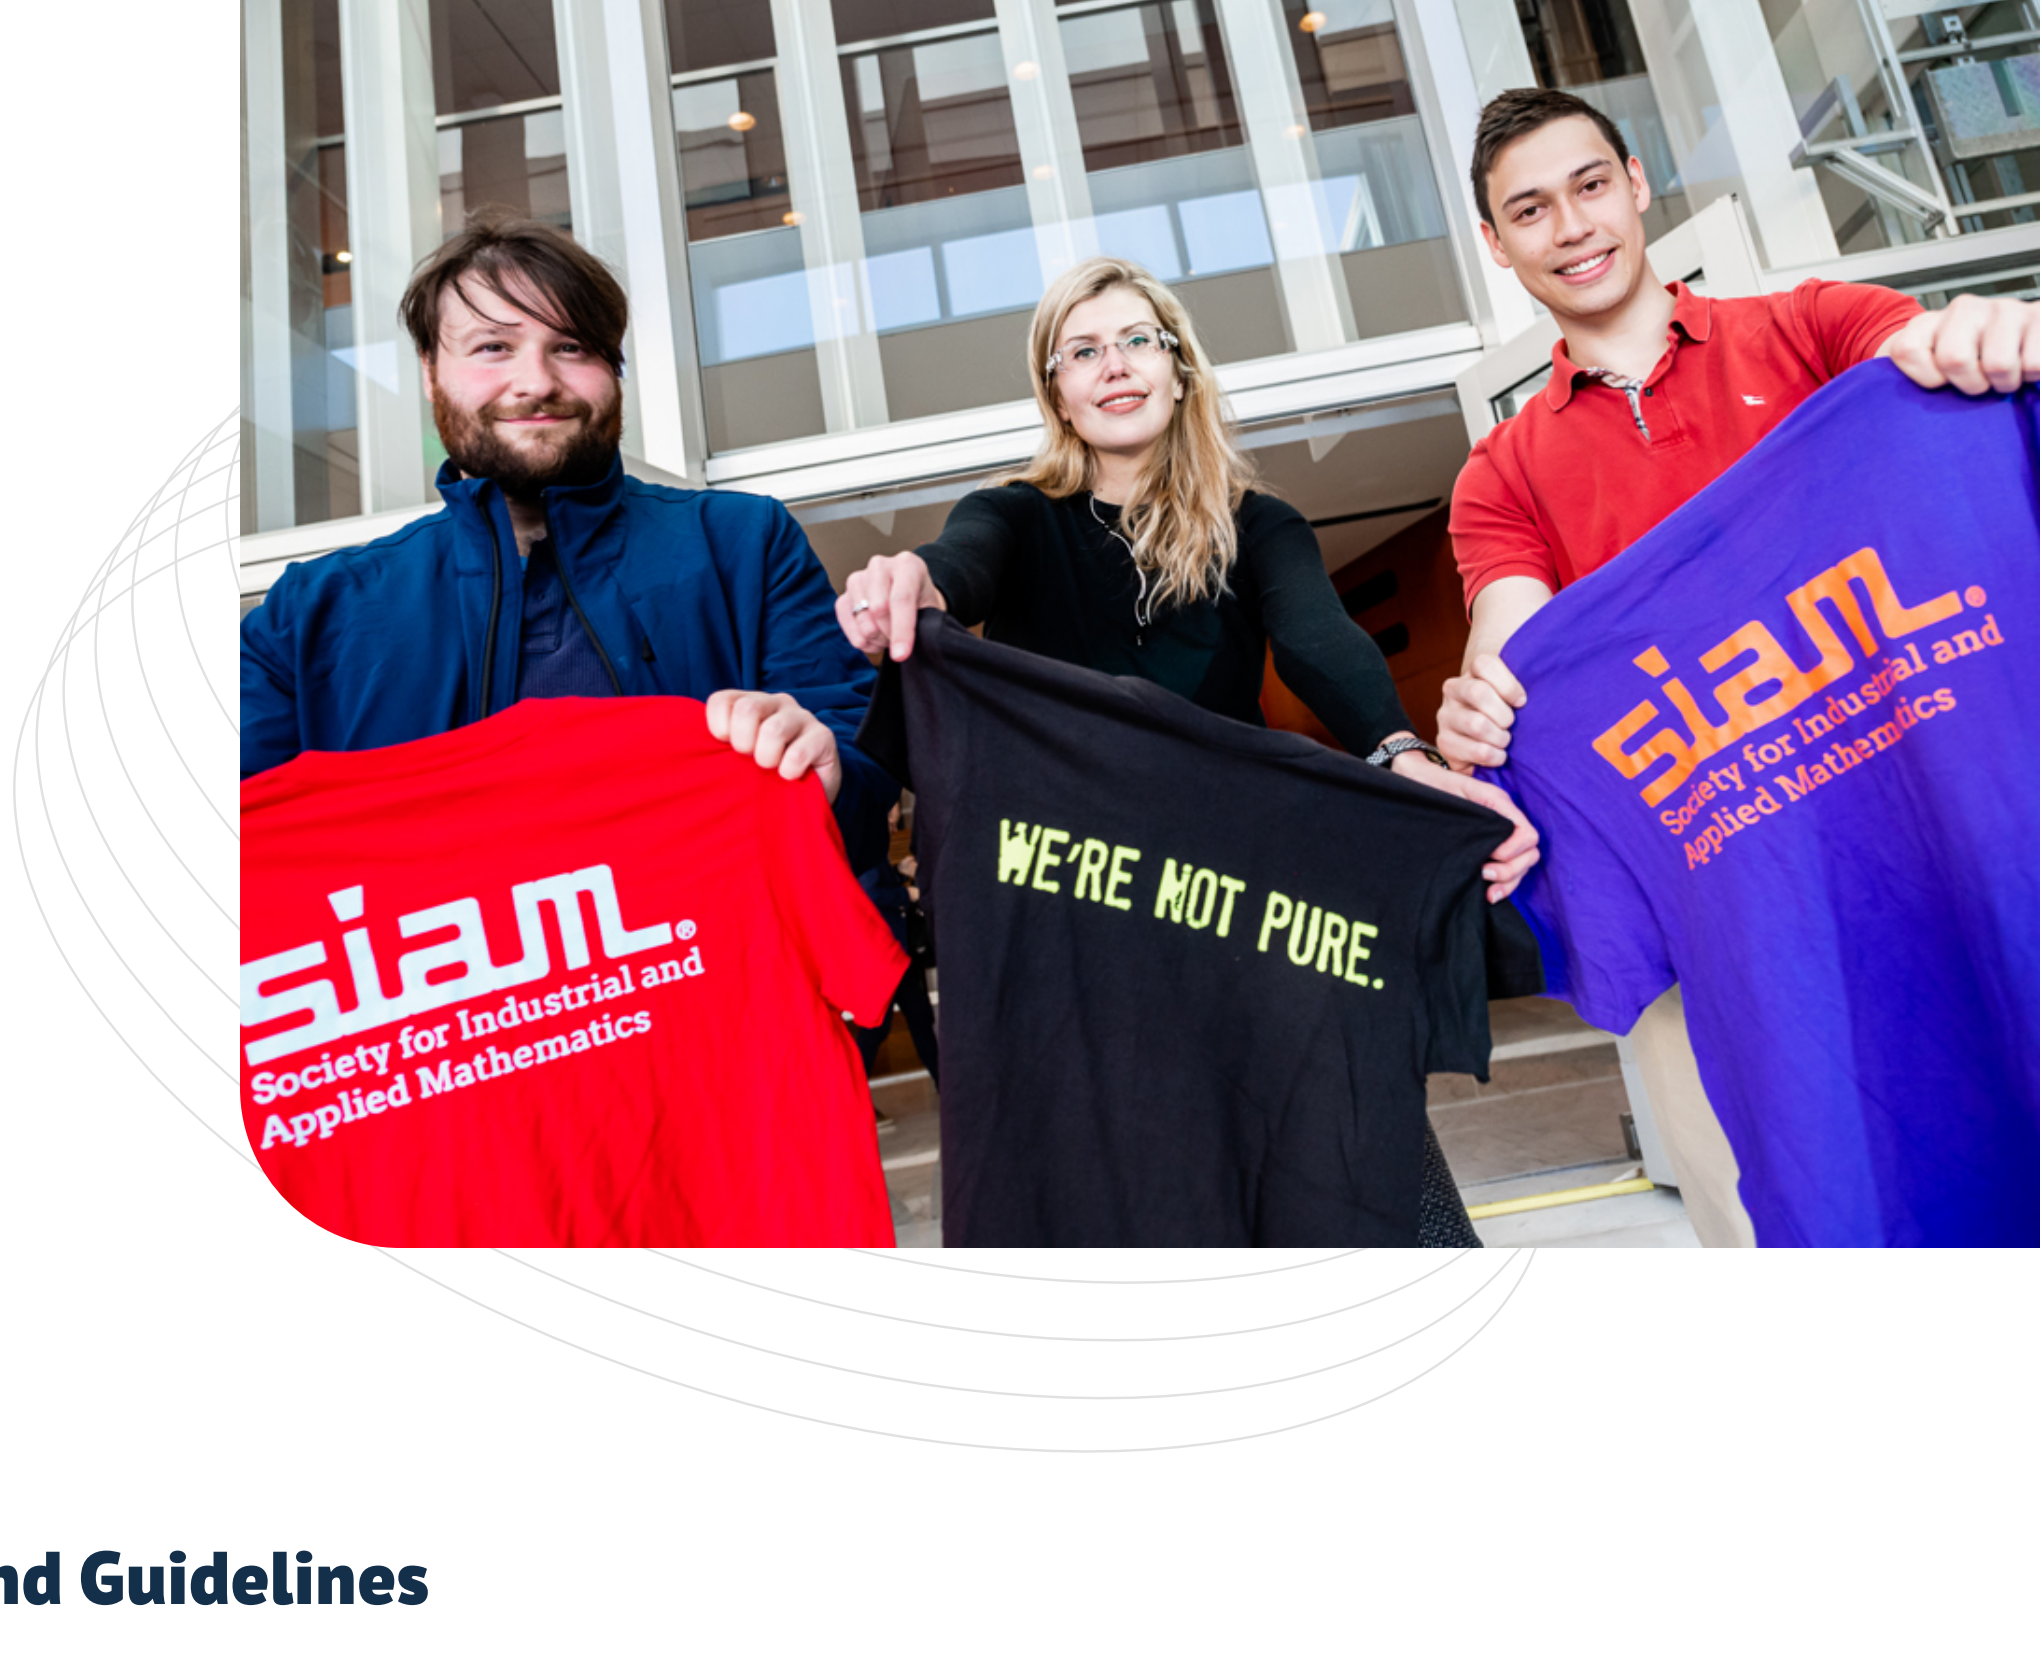

MAKE THE MOST OF YOUR EXPERIENCE

About SIAM Conferences

Find all of the information you'll need to prepare for and navigate SIAM conferences, including conference guidelines and how to propose a new conference.
